- 04.30 pm - 06.00 pm

Description

OPES manufactures and designs solar modules for Solar Pico, Solar Home and PAYG Systems in the field of rural electrification as well as customized solar application modules for the innovative products of our clients. Based on their material and technical requirements we design the modules and then produce them in small and big volumes on our unique automated production line. Examples are parking meters, street lights or marine and outdoor applications.
