DESCRIPTION SunFunder is a dynamic and growing solar energy finance business based in U.S.A. and Tanzania. Our mission is to catalyze billions of dollars of investment in solar energy systems beyond the grid, where over 2 billion people live without access to reliable energy. Working with both residential and commercial solar companies, we offer short-term inventory, working capital and structured finance facilities to companies with a proven track record for quality and growth and structure \$100k - \$2M inventory and working capital facilities with structured facilities ranging \$2M to \$10M. We raise capital through private debt offerings that give accredited investors an opportunity to invest in a diversified, vetted, and high impact portfolio. SunFunder aims to raise and deploy \$1 billion into solar projects around the world by 2020.
